# Entropy

By Patrick Duane

### Verse 1

My attention a million things demand  
To stay afloat in this chaotic land  
Should I ignore them, they threaten to make  
My weary, weathered spirit break  
But you tell me to worry not  
My well-being is Your ultimate thought  
My success is Your desire  
You want only to lift me higher

### Chorus

I will trust that Your words are true  
That You're guiding me to make it through  
That You're leading me to a better place  
And you lavish me with unending grace

### Verse 2

There are things for which I often pray  
But they're unanswered to this day  
I wonder when You'll come through  
Or if You simply will refuse  
But in Your Word You say to wait  
Though it may seem to have doomed fate  
My prayers You'll answer when the time is right  
And You'll come through with Your endless might

### Chorus (x2)

### Bridge

The enemy is pressing me  
I'm crushed under everything  
From the sea save me, I plea  
Before I drown in the Entropy

### Chorus (x2)
